

## STYLING AT THE LAIR

To make or style a costume that has the extraordinary you all over it, here's some things to help give clarity along the way.

What style do you have in mind? Glamorous, vintage or whimsical flair?	
More detail like vintage movie star, hippy or gothic vibe, fantasy, fairy	
What colours do you like?	
What are your interests, i.e. nature, vintage, certain flowers?	
Will you require the services of a professional makeup artist?	
Are there any props or costumes you have seen on my socials you would like to wear/use on the day?	
Are you bringing any items to wear? Or incorporate into the outfit?	
What shoes will you bring on the day?	
Is there anything else you want to add?	

Please note – I have extensive professional photo retouching & graphic design skills, therefore there is basically no limits to what we can do. See my socials as a guide.
